Tracking the News at Independent Tractor Services

The ITS team wishes you a successful, productive year in 2007.

The year has kicked off busily for us, and we have some exciting news for you.

First, we are proud to be able to show you some brand new tractors and fertiliser spreaders in our recently introduced outdoor display area.

At the end of last year, we created a new secure parking area over the road, and turned the previous car park into the perfect place to display new machinery. Here, you can jump aboard these fine new tractors and get a feel for them.

We look forward to your visit soon.

In another exciting development, we now proudly boast our own website, which you can find at www.its.co.zw. Complete with background information, photos and animation, this interactive site downloads very fast and will be an invaluable reference point for customers existing and future alike.

Take a look NOW! Send us your feedback about the site, and feel free to tell us what additional information you'd like to find there in future.

Come and visit us NOW to take a look at NEW tractors and equipment
